HOMESTEAD UPDATE

SECURITY LIGHTS-

The three security lights purchased have been installed. They are shining bright at night as they light up the front parking lot and the walkways providing much needed security and visibility for the church. We have three more to purchase and install. One will shine on the back parking lot and two more on the concrete lot facing 131.

OUR HOMESTEAD HANDYMAN-

It's always good to have a handyman around the "House" (pun intended)! In January, Danny McPhearson retired and is graciously volunteering his time every week to improve the Homestead! Danny has been at it for just one month and here are some of the jobs that have been accomplished:

Installed dishwasher in the kitchen, fixed two toilets, installed exhaust fan in back restroom, changed furnace filters, replaced weather stripping on outside doors, repaired damaged pew, repaired office chair, repaired desk in main office and repaired the small podium.

Let this news inspire you to get involved at the church!

IF YOU AREN'T A HOMESTEAD PARTNER YET, NOW IS THE TIME!

Spring is just around the corner and campus work will begin. We want to HIT THE GROUND RUNNING! We need you to join the covenant with us and help us restore and secure the Homestead! Go to hofr.org/homestead to sign up.
